Linea Diamond

The Linea Diamond chest of drawers collection is inspired by the edge of a diamond. Geometric, spatial division of surfaces creates interesting games of light and shadows. Diamond chests of drawers will adorn your stylish interior.

We produce the Diamond D3 chest of drawers in three color variants with a high-quality surface finish. The interior is divided by glass shelves.

Each table is original

Natural veneer, its beauty and the authenticity of the material make it an integral part of our tables. We carefully select each veneer and each table is original. The wood drawing excels with the final varnishing and the table top acquires surface resistance.
